

social gerontology a multidisciplinary pdf

Gerontology is the study of the social, cultural, psychological, cognitive, and biological aspects of ageing. The word was coined by Ilya Ilyich Mechnikov in 1903, from the Greek $\gamma\epsilon\rho\omicron\nu$, geron, "old man" and $\lambda\omicron\gamma\omicron\iota$, -logia, "study of". The field is distinguished from geriatrics, which is the branch of medicine that specializes in the treatment of existing disease in older adults.

Engineering and Science collectively played a major role in the lives we live in the 21st century. In today's technology driven world, engineering is the cornerstone and driver of innovation of the devices we utilize daily to improve our quality of life.

Special Issue on Multidisciplinary Sciences and Engineering

A school social worker provides counseling and psycho-social services to children and adolescents in schools at both micro and macro levels. Social workers work as mental health experts, leaders of social and emotional development within the school community, family-school liaisons, and program development experts.

Eq. specifically applies to the article rank from 31 to 500. For the articles ranked from 31 to 100, the data are displaced to the right slightly (the coefficient increases) but the slope. In fact, considering any series of articles with the same rank "100 to 200, 200 to 300, 300 to 500" only the coefficient changes but the exponent is essentially constant and $R^2 > 0.99$.
