This page is a collection of links for children, teachers, and parents. Topics are based on the curriculum for Kindergarten through grade four, although many pages will be of interest to older students.

Teach the Children Well-Technology

Basic Networking Tutorial - a network is any collection of independent computers that communicate with one another over a shared network medium. A computer network is a collection of two or more connected computers. When these computers are joined in a network, people can share files and peripherals such as modems, printers, tape backup drives, or CD-ROM drives.

Data Communication & Computer Network - Tutorials Point

Computer science is the study of processes that interact with data and can be represented as data in the form of programs. It is the theory, experimentation, and engineering that enables the use of algorithms to manipulate, store, and communicate digital information. A computer scientist studies the theory of computation and the practice of designing software systems.

1C. Constructivism as a Theory of Active Learning. The basic claim of constructivism is that "people learn by using what they know to construct new understandings...[so] all learning involves transfer that is based on previous experiences and prior knowledge (How People Learn, pages 68, 236)." Therefore, when teaching any idea or skill a teacher should try to understand the "previous ...
